**6 Objects Exhibited**

Permitted objects for exhibition are the following: unset coloured gemstones and diamonds in all qualities, shapes, and sizes; rough gemstones; minerals; gemstone jewellery; articles and objects crafted from gemstones; industry-related equipment and services.

**7 Permission**

Exhibiting at the trade fair is possible only for firms if their range of products is in accordance with the specifications mentioned above. Participation and permission to exhibit certain goods will be decided upon by the organisers together with the Board of the Trade Fair Association. There is no legal entitlement to being permitted to participate. Permission to participate as exhibitor will be confirmed by the organisers in writing and will be valid for the named exhibitor only. Any legal successors of said exhibitor will not automatically become accepted as exhibitor, but will have to apply for exhibition permission. On sending out the permission, the exhibition contract between exhibitor and organisers will become valid. Conditions for participation are part of the

exhibition contract. The organisers reserve the right to cancel any given permission if it was attained on the basis of wrong information or wrong assumptions, or if the conditions for permission are no longer met by the time permission is granted.

During the time of INTERGEM's being held, exhibitors are not allowed to hold special sales events on the premises of their firms, or to promote any such event. Firms holding such sales events on their firm's premises at the same time as INTERGEM must not be INTERGEM exhibitors. Exhibitors who do not meet the obligations arising from the participation conditions will be excluded from participation. Cancellation of a participation permission or exclusion does not constitute grounds for claiming recompense or compensation from the organisers or the Trade Fair Association.

**8 Registration**

Registration is possible only by using the special registration form accepting these conditions of participation. When completely filled in and signed in a legally binding way, the registrations have to be sent to:

Intergem Messegesellschaft mbH  
John-F.-Kennedy-Str. 9  
55743 Idar-Oberstein, Germany  
fax: 0049-6781-568 722 72  
e-mail office@intergem.de

Any remarks or restrictions or conditions added on these forms will not be considered binding. Wishes and preferences will of course be considered as far as possible, but they will not constitute conditions. There is no right to exclude any competitors.

The registration is considered a firm one independent of granting permission (paragraph 7). Only when it has been received by the Intergem Messegesellschaft mbH it will be considered valid and binding until permission to participate is granted or denied. In order to facilitate processing, information and data will be stored and, if necessary, passed on to third parties to fulfil the contract.

**9 Allocation of Stand Changes**

If the area assigned is not available, the exhibitor may claim reimbursement of the rent for the stand. No additional compensation can be claimed. If circumstances should demand it, however, the organiser may change allocation or size of the stand contrary to prior allocation. The organiser also has to reserve the right to change the location of entrances and exits to the fair grounds and halls as well as the passages.

**10 Co-Exhibitors and Joint Stands**

Firms fulfilling the permission conditions (paragraph 7) and which were put on the waiting list may become co-exhibitors. It is, however, not allowed to sublet or share an allocated stand or parts thereof without attaining prior written consent of the organiser. Goods or firms not mentioned on the registration form must not be promoted at or in the stands.

Accepting a co-exhibitor has to be applied for in writing at the organiser's. Only on having received written consent by the organiser, a co-exhibitor may be accepted. Co-exhibitors have to meet the same participation conditions as the main exhibitors. A co-exhibitor fee of €450 will be charged. This flat rate includes all ancillary costs, entry in the trade fair catalog print and online and two exhibitor passes. Per stand, only one co-exhibitor is accepted. (The organiser reserves the right for making exceptions from this rule).

Accepting a co-exhibitor without consent of the organiser's is a breach of contract and the organiser will then be entitled to immediately cancel the contract with the exhibitor, and to have the stand cleaned out at the expense of the firm which rented it. To this extent, the renter of the stand thus disclaims his rights from prevented self-determination.

The renter of the stand may not claim any recompense. Co-exhibitors may be entered in the catalogue on the basis of the conditions for such entries, provided the fee has been paid and the documents are handed in time. Larger joint stands may be granted by the organiser in accordance with the Board of the Trade Fair Association, if it is possible to integrate these into the subject-oriented structure of the event. Should a stand be allocated to two or more firms jointly, each firm will be held liable by the organiser as debtor owing the complete amount. Firms exhibiting jointly have to name a common representative on registration.

**11 Withdrawal**

Up to the time permission is granted, withdrawal from the contract is possible. Generally every registered exhibitor has the right to withdraw from his contract by May 31<sup>st</sup>, 2022, free of charge. After this date, up to permission being granted to the exhibitors by means of stand confirmation/ stand billing there will be charged a withdrawal fee of 25% until August 31<sup>st</sup> 2022 and after this date there will be charged a withdrawal fee of 75% of the rent for the stand, plus VAT. From the start of the construction period, the complete rent for the stand plus all costs incurred so far has to be paid.

The organiser may change or swap area not used to achieve a better overall optical impression: this does not free the exhibitor from his obligation to pay. Should the funds of the exhibitor be subjected to composition proceedings or liquidation proceedings respectively, or should opening such proceedings be denied due to lack of funds, the organiser will have the right to terminate the contract immediately without notice.

In any case, the exhibitor has to inform the organiser immediately before liquidation or composition proceedings are to be opened.

**12 Exhibits**

Goods not named on the permission may not be exhibited or offered. Goods which are not permissible may be removed by the organiser at the exhibitor's expense.

Should the trade fair not be held due to one of the reasons quoted above, the exhibitor may be charged an amount up to 25% of the stand rent to cover general costs. Individual amounts may only be higher if the exhibitor has ordered additional services to be charged to his bill. Claiming compensation or recompense from the organiser is excluded.
