

### Number of participants

The 3G rule applies - access only with proof of a vaccination, recovery or test certificate. The number of non-immunized persons permitted within the exhibition halls depends on the current warning level. The 3G certificates will be checked upon entry into the trade fair. A free test station will be available.

### Social Distancing

The minimum distance of 150 cm between persons has to be abided at all times (Aisles, waiting areas and inside the exhibition booths).

### Compulsory Masks at all times

During meetings the masks can be removed if a separation acrylic wall has been installed.

### Disinfection & Cleaning

Disinfectant dispensers are installed at all crucial waypoints through the fair. Commonly touched surfaces (counters, tables, hand railings) are cleaned frequently. The cleaning inside of exhibition booths is responsibility of the respective exhibitor

### Ventilation

The exhibition halls are equipped with state of the art ventilation systems which ensure a permanent air exchange.

### Hygiene in sanitary installations

The sanitary installations are cleaned at a high frequency. Sufficient hand wash basins and disinfection opportunities are ensured.

### No Contact Walkways

All doors (except fire safety doors) will remain permanently open to reduce contact with surfaces.

### Meetings

To ensure safety the minimum distance of 150 cm needs to be abided by. Physical contact and shaking hands should be avoided.

### Exhibitor booth events

Exhibitor events with a "partylike" character are prohibited

### Tracking through registration

The tracking of visitors is ensured through the online ticketing process. Exhibitors are able to track booth visitors through the handed out notepad. In case of emergency all data will be handed over to the local public health authorities of Idar-Oberstein

### Ticketing

Tickets are available online only. Predominantly contact-less and digital access control to reduce human-to-human interaction.

### Medical service

Medical service is present at all times.

### Hygiene

Each exhibitor has to provide disinfectant for his/her respective booth. Surfaces are to be cleaned regularly.
